

CORONA VIRUS

COVID-19 / 08.02.2021

INFORMATION AND REQUIREMENTS FOR OWN EMPLOYEES, SUPPLIERS, CUSTOMERS AND CUSTOMERS SUPPLIERS

Regarding the situation with Corona virus / COVID-19, it is a requirement that all employees, customers, suppliers and customers' suppliers show extended responsibility - both in relation to themselves, colleagues and the other surroundings. This is done, for example, by following the Danish authorities' instructions. These can be read in both Danish and English at www.sst.dk/corona.

The 5 recommendations from the authorities are:

- Wash your hands frequently or sanitize your hands with an alcohol-based hand rub.
- Cough or sneeze into your sleeve, not your hands.
- Limit physical contact – avoid handshakes, refuse kisses on the cheek and avoid hugging.
Be diligent with cleaning – both at home and in your workplace.
Keep your distance and ask others to be considerate.

In addition, Orskov Yard has introduced that, face masks must be worn:

- When driving in trucks with more than one person.
- In the common canteen.
- In the administration building on South dept., and the master's office on North dept.
- During ALL meetings on Orskov Yard.

We also refer to the fact that face masks and gloves are used as much as possible when you are in the yard's areas.

Stricter entry restrictions to Denmark – provisionally valid until and including 28th February 2021:

Foreign inspectors, business travelers and migrant labor

For all foreign inspectors, representatives, business travelers and migrant workers entering from abroad to Orskov Yard with a recognizable purpose, a negative COVID-19 test - performed a maximum of 24 hours before the time of entry - must be presented.

We also refer to see more at

<https://coronasmitte.dk/en/entry-into-denmark>

For travelers from the UK and South Africa

Please see <https://coronasmitte.dk/en/entry-into-denmark/persons-resident-in-countries-outside-of-denmark> under the tab "Persons resident in The United Kingdom or South Africa"

Crew

According to the authorities, foreign seafarers who enter Denmark with a recognizable purpose have land permits in Danish ports. However, you must be able to present a negative Corona test – taken no later than 24 hours – before going ashore.

Orskov Yard strongly recommends that foreign crews do not go ashore when they are in the yard's areas.

Requirements for testing and isolation after entry into Denmark

In order to limit the introduction and spread of more contagious virus variants, the Danish authorities have introduced requirements for testing and isolation for 10 days in connection with entry into Denmark. The new rules apply from February 7th 2021 to February 28th 2021 and can be read here:

<https://en.coronasmitte.dk/rules-and-regulations/entry-into-denmark>
However, foreign workers, including maritime technicians and business travelers, can break the isolation while, for example, performing their work or providing services. Outside working hours, they must remain in isolation. The isolation period can be interrupted completely if they receive a negative response to a PCR test taken no earlier than the 4th day after entry.

Suspicion of Corona infection

If infection with the corona virus is suspected, a negative test must be shown before access to Orskov Yard's area can be allowed.

You are also strongly encouraged to get tested once a week during your stay at the yard.

Previously infected with Corona

People who have previously been infected with Corona must present evidence of a positive Corona test result that is at least 14 days and at most 12 weeks old.

All questions can be directed to the management.

Best regards

Novel coronavirus

Protect yourself and others

The novel coronavirus typically spreads from one person to another in places with many people present via direct physical contact (shaking hands, hugging, kissing, etc.) and via droplets when an infected person coughs or sneezes.

Take care of your health and protect others by doing the following:

**Wash your hands frequently
or sanitize your hands with
an alcohol-based hand rub**

**Cough or sneeze into your
sleeve, not your hands**

Limit physical contact
– avoid handshakes, refuse
kisses on the cheek and
avoid hugging

Be diligent with cleaning
– both at home and in
your workplace

**Keep your distance and ask
others to be considerate**
